w 18 unfilled OYAP seats	3800	3468	3159	3233	2926	91%	91%	102%	93%

We were actually approved for 3,800 seats but 18 seats in OYAP were not filled. Because those seats were not assigned to any board, I did not include them in our tally. EDCS reports will base their data on 3800 approved seats. This only affects the percentage of seats filled by 1%.

\*\*Board success in high school courses of over 102% is because in OYAP programs, students earned more than one high school credit.
