Spring 2018

Date of Visit: May 24, 2018

SMART Goals for 2017-18

SMART Goals	Strategies to Achieve Goals	Achievement of Goals
<p>To increase the percentage of seats filled by 1% overall from our current 2016-2017 of 90% of seats filled to 91% while maintaining our strong retention rate. Provide a strong rationale for each program that has historically had low percentages.</p>	<ul style="list-style-type: none"> • Boards and colleges to maintain close communication regarding the status of dual credit seats especially when the registrations are very low • Appropriate student selection needs to be a priority in certain projects • Seats may need to move more freely to accurately reflect #'s • Deadline of 6 weeks prior to course start was discussed but setting a deadline is difficult, especially for alternative schools • Boards and schools are encouraged to review the selection criteria for dual credits to best select those who would benefit from this initiative 	
<p>Increase the variety of hands-on student resources and materials (increasing use of LMS, video links, manuals...).</p> <p>Each college will introduce at least one new resource.</p>	<ul style="list-style-type: none"> • Examine feasibility of dual credit course packs vs. textbooks • Work w/ Academic Leaders and Faculty to develop resources • Use class sets • How should online resources such as LMS be incorporated • Examine the use of other resource materials that are less costly (on-line resources and websites, hands-on activities...) • Fleming to investigate SS teacher access to LMS • Loyalist is looking at access codes for students to use the virtual textbook rather than purchasing the hard copies. Sometimes the access code is not much cheaper than the actual text cost.
